

Community CSCOPE Shower

What is CSCOPE?

CSCOPE, developed by Texas Education Service Centers and a team of content experts, is a comprehensive, customized, user-friendly curriculum management system built on the most current research-based practices in the field. Its primary focus is to impact instructional practices in the classroom to improve student performance.

Why should businesses and the community get involved?

The students in today's education system are the future leaders and policy makers of our nation. The education they receive must provide them the skills necessary to be active participants in our society and to realize their economic and personal goals.

Family and community involvement foster partnerships among schools, family and community groups, and individuals. These partnerships result in sharing and maximizing resources. Research shows that with this involvement, students: adapt well to school; attend school more regularly; complete homework more consistently; earn higher grades and test scores; graduate and go on to college; have better social skills; show improved behavior; have better relationships with their parents and have higher self-esteem. Additionally, linking **community activities to the classroom**; improves school-related behaviors; positively impacts academic achievement and reduces school suspension rates.

So what can you do to help?

On **November 3rd and 4th**, we are asking parents and the community to shower schools with CSCOPE **supplies** listed to the right and on the back of this sheet as suggested by PAISD awesome Curriculum and Instruction Supervisors; **Rita Leger, Yolanda Getwood, Carolyn Brown and Freddie Renfro.**

Please bring items to schools on the mornings of Nov. 3rd-4th.
