

Item #	Description	Vendor Response Code	Vendor Comments
1567.	Class Ranking		
1568.	Earned Credits		
1569.	Ability to sort grades by assignment, exam, date, category, etc.		
1570.	Flexibility/Ability for teacher to adjust grading scale		
1571.	Flexibility/Ability for teacher to adjust test/assignment weighting		
1572.	Ability to produce grade reports by teacher, grade, semester, school, course, etc.		
	Ability to produce standard report cards/progress reports including:		
1573.	Grades (numeric, alphanumeric, and graphic)		
1574.	Behavior/Citizenship		
1575.	Effort		
1576.	Reading levels		
1577.	Recommended tutorials		
1578.	Modified grades based upon IEP		
1579.	Required assignments		
1580.	Attendance		
1581.	Comments		
1582.	Ability to produce the above standard report cards/progress reports by user-defined reporting periods.		
	Ability to produce UIL eligibility reports based on:		
1583.	Weekly Grades		
1584.	Attendance		
1585.	Previous school year credit		
1586.	Semester GPA		
1587.	Ability for system to provide possibility for GPA calculation to be weighted by credit		
1588.	Ability for system to allow for citizenship grades		
1589.	Ability for system to allow for final exam grades		
1590.	Ability for system to provide different grading strategies for different student groups		
1591.	Ability for teachers to change student grades within the system for a specific period of time		
1592.	Ability for automatic conversion of incomplete grades to a user defined grade		
1593.	Ability to define grading methodology per course section.		
	TRANSCRIPT PROCESSING		
1594.	Ability to send transcripts on a user-defined basis.		
1595.	Ability to create one transcript for students attending multiple schools.		
1596.	Ability to maintain history records for student transcripts		

Vendor Response Code:

A - The current release of the software supports this specification. This feature is currently installed and in successful operation at one or more of the vendor's customer sites.

B - This specification is supported but not exactly as stated. Provide explanation in the comment section.

C - This specification is not currently in operation at a customer site but will be included as a part of the release to be installed as a result of this RFP.

D - This specification is not currently supported. The necessary modifications required to meet the specification will be provided at no cost to PAISD. Comments must be included to indicate the time frame required to provide the modification.

E - This specification is not currently supported. The necessary modifications required to meet the specification will be provided at an additional cost to PAISD. Comments must be included to indicate the cost and time frame required to provide the modification. Modification costs must also be included in the cost summary section of the response.

X - This specification is not supported, and no modifications will be provided.

	indefinitely.		
1597.	Ability to enter semester transcript requests anytime but not print them until end of term.		
1598.	Ability to change a grade in the student transcript and have the software automatically recalculate the GPA and Class Rank for the student, with overrides.		
	Ability to show (Per student):		
1599.	Repeated courses		
1600.	Remedial courses		
1601.	Courses not counted in GPA		
1602.	Posting of diploma and date awarded		
1603.	Automatic posting of designations:		
a.	Night School		
b.	Correspondence		
c.	Credit by Exam		
d.	Junior High/Middle School		
e.	Summer School		
f.	Non-public		
g.	Local Credit		
h.	Honors		
i.	GT		
j.	IB		
k.	AP		
l.	Dual		
m.	Special Ed		
n.	Other(s)		
1604.	Posting of non semester notations		
	Ability to separate credits by:		
1605.	Local Credit		
1606.	State Credit		
	Ability to identify courses where courses were taken:		
1607.	Within District		
1608.	Outside District; In-State		
1609.	Out-of-State		
1610.	Foreign		
1611.	Other		
1612.	Ability to store an electronic signature.		
1613.	Ability to report how many requests for records/transcript were actually processed for that student.		
1614.	Ability to develop reports on students who requested transcripts and have a block on their record.		
1615.	Ability to store information on which school transcripts were		

Vendor Response Code:

A - The current release of the software supports this specification. This feature is currently installed and in successful operation at one or more of the vendor's customer sites.

B - This specification is supported but not exactly as stated. Provide explanation in the comment section.

C - This specification is not currently in operation at a customer site but will be included as a part of the release to be installed as a result of this RFP.

D - This specification is not currently supported. The necessary modifications required to meet the specification will be provided at no cost to PAISD. Comments must be included to indicate the time frame required to provide the modification.

E - This specification is not currently supported. The necessary modifications required to meet the specification will be provided at an additional cost to PAISD. Comments must be included to indicate the cost and time frame required to provide the modification. Modification costs must also be included in the cost summary section of the response.

X - This specification is not supported, and no modifications will be provided.

	sent to which schools.		
1616.	Ability to perform credit evaluations online with electronic signatures.		
1617.	Ability to generate and produce reports of course equivalency tables.		
	Ability to post transfer credit by:		
1618.	Quarter		
1619.	Semester		
1620.	User-defined timeframe		
	Ability to track all information regarding courses taken and grades received, including:		
1621.	Semester taken		
1622.	Course ID		
1623.	Credits		
1624.	Grade		
1625.	GPA applicability		
1626.	Ability to produce a transcript that is not PEIMS based (e.g., objective based)		
1627.	Ability to allow for summing or performing detailed transfer credit.		
1628.	Ability to know at end of transcript run if system did not produce a transcript for that student and why.		
1629.	Ability to print courses in progress and detailed and/or summary transfer credit.		
	Ability to load transcript comments:		
1630.	By semester		
1631.	By year		
1632.	Other		
1633.	Ability to print student's academic status on grade mailers and transcripts.		
	Allows course history data from other districts and schools to be recorded, as:		
1634.	Credits attempted		
1635.	Credits earned		
1636.	Credits earned on courses failed		
1637.	Credits denied		
1638.	Semester grades		
1639.	Semester averages		
1640.	Final grades		
1641.	Other		
1642.	Any high school credit prior to their 9th grade automatically be included in the 9th grade course history file.

Item #	Description	Vendor Response Code	Vendor Comments
	Ability to calculate pre-high school credit, which is based upon:		
1643.	Full credit when both semesters are passed.		
1644.	No credit if student fails either semester.		
1645.	No credit if student does not attend both semesters.		
1646.	Ability to flag pre-high school credits so that system does not include this course in the GPA calculation.		
1647.	Ability to flag pre-high school credits that are included in the GPA calculation.		
1648.	Automatically includes regular and summer school courses to be included in the course history file.		
1649.	Ability to record credits for classes in one semester but designate the reporting of the credits in another semester (e.g., out of sequence trailing courses.)		
1650.	Changes in previous years' grades or credit information can be made by authorized users.		
	Supports a district -defined transcript format that includes:		
1651.	Demographics		
1652.	Academic information		
1653.	Test data		
1654.	Class rank		
1655.	Schools attended		
1656.	Courses taken		
1657.	Grades received		
1658.	Credits received		
1659.	Grade Point Average		
	Produces a student's permanent record transcript of grade labels, including:		
1660.	Grades		
1661.	Rank		
1662.	Attendance		
1663.	Assessment		
1664.	Demographics		
1665.	Entry/Withdrawal dates and reason codes		
1666.	Other		
	Produces a printed transcript with:		
1667.	Grades		
1668.	Rank		
1669.	Attendance		
1670.	Assessment		
1671.	Demographics		
1672.	Other

Item #	Description	Vendor Response Code	Vendor Comments
	Supports the requirements for an unlimited number of different graduation plans, including:		
1673.	Different subject areas		
1674.	Multiple subject areas		
1675.	Subject areas for different plans		
1676.	User-defined		
1677.	Allows a graduation plan to be associated with each student.		
1678.	Generates a graduation requirements report on screen or in hard copy, which helps determine a student's progress toward graduation under his/her graduation plan.		
1679.	Ability to run graduation plan scenarios.		
1680.	New graduation requirements and plans for incoming freshmen can be phased in without affecting other classes.		
1681.	All years' transcript information for a student can be viewed on one screen.		
1682.	Progress toward graduation can be viewed on one screen in a bar chart or graph, and printed for parent/student conferences.		
1683.	Transcripts can be printed individually or mass printed.		
1684.	Ability to select transcript records to be printed in groups.		
1685.	Ability to print groups of transcripts (e.g., class, grade level, etc.)		
1686.	Ability to print multiple copies of transcripts.		
1687.	Transcripts can be printed in user-defined sort order.		
1688.	Transcripts display historical and current year data.		
1689.	Transcript print-outs automatically pick up the latest GPA and ranking calculations.		
	REPORTING/QUERYING		
	Ability to post the following to student/parent Web reports/portals:		
1690.	Progress reports		
1691.	Report Cards		
1692.	Transcripts		
1693.	Assignments		
1694.	Attendance		
1695.	School information		
1696.	Other student-related information		
1697.	Ability to drill-down from any ranking report to individual assignment grades.		
	All reports must be able to accommodate for currently enrolled students:		
1698.	Multiple marking periods		
1699.	Multiple grade scales to exist in a single class		

Vendor Response Code:

A - The current release of the software supports this specification. This feature is currently installed and in successful operation at one or more of the vendor's customer sites.

B - This specification is supported but not exactly as stated. Provide explanation in the comment section.

C - This specification is not currently in operation at a customer site but will be included as a part of the release to be installed as a result of this RFP.

D - This specification is not currently supported. The necessary modifications required to meet the specification will be provided at no cost to PAISD. Comments must be included to indicate the time frame required to provide the modification.

E - This specification is not currently supported. The necessary modifications required to meet the specification will be provided at an additional cost to PAISD. Comments must be included to indicate the cost and time frame required to provide the modification. Modification costs must also be included in the cost summary section of the response.

X - This specification is not supported, and no modifications will be provided.

Item #	Description	Vendor Response Code	Vendor Comments
1700.	Ability to generate elementary student class lists by user-defined criteria		
1701.	Ability for parents to generate "as-of" date progress reports/report cards.		
1702.	Ability to provide many standard grading reports		
1703.	Ability to identify teachers whom have not completed grades.		
1704.	Ability to produce comparison reports (between user-defined dates)		
1705.	Ability to create user defined report cards		
1706.	Ability to create user defined progress reports		
	Includes the following standard reports:		
1707.	Comment Usage Report		
1708.	Incomplete Grade Report		
1709.	Failure Report		
1710.	Department Grade Distribution		
1711.	Teacher and Course Grade Distribution		
1712.	Honor Roll List		
1713.	Blank Grade Report		
1714.	Department Grade Distribution		
1715.	Academic Ranking		
1716.	Insufficient Credit Report		
1717.	Missing Grades Report		
1718.	Grade Point Average (current & cumulative)		
1719.	Grade Summary Report		
1720.	Mark Verification Sheets for teachers that includes a complete semester for:		
a.	Grades		
b.	Attendance		
c.	Credits		
d.	User-defined		
1721.	Roster Report		
1722.	Teacher grade input scanner forms		
1723.	Permanent Record Labels by level		
1724.	Report Cards with multiple records per page		
1725.	Student Detail Assessment Report		
1726.	Classroom Summary Assessment Report		
1727.	Common Assessment Report (view or print)		
1728.	Grade Level Summary Assessment Report		
1729.	Student Comparison Report		
1730.	Reports can be customized or filtered by any test criteria or demographic subgroup of students.		
1731.	As-of reports span multiple years.
